Charged-lepton harmonic ladder with correction-stage and Protocol B gates

Mass ladder

Correction-stage residuals

Protocol B / scorecard gates

Muon P.1	21.2 ppm	POSTDICT OK
Tau P.1b	50.95 ppm	TENSION
Linear Hessian	0.18e6 ppm	GRAPH TENSION
LEA headline	~2.6 sigma	NOT DETECTION

Linear eigen-ratios do not emit phi^11/phi^17; the LEA headline is a broad-sweep status, not a detection claim.
