Neutrino mass floor: GCT value is in LCDM tension but outside registered hard gates

Mass-sum axis

P.4 / P.6 model comparison

Mass channel	Dark-energy channel	
Current GCT value sits between LCDM tension lines and registered fail bands.		
<0.075 eV	w=-1 at z<0.5	JOINT FAIL
<0.075 eV	phantom signature	REWORK
0.10-0.15 eV	phantom signature	JOINT SUPPORT
0.10-0.15 eV	w=-1	DE RETRACT
